

A

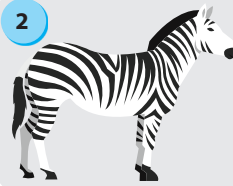

Look the pictures and choose the correct option.

1

- a. lion
- b. crocodile
- c. giraffe

2

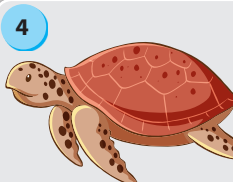

- a. zebra
- b. rhino
- c. monkey

3

- a. snake
- b. eagle
- c. lizard

4

- a. orangutan
- b. deer
- c. turtle

5

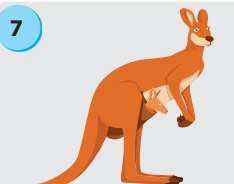

- a. tiger
- b. elephant
- c. owl

6

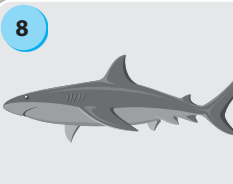

- a. whale
- b. dolphin
- c. squirrel

7

- a. polar bear
- b. bear
- c. kangaroo

8

- a. shark
- b. octopus
- c. seal

1. Where do penguins live?

2. What kind of animals are giraffes?

3. What do squirrels eat?

4. Are Polar bears herbivorous?

5. Do crocodiles eat plants and leaves?

6. Are elephants mammals?

7. Do foxes live in jungles?

8. What's owls' natural habitat?

9. What kind of animals are whales?

10. What are eagles' preys?

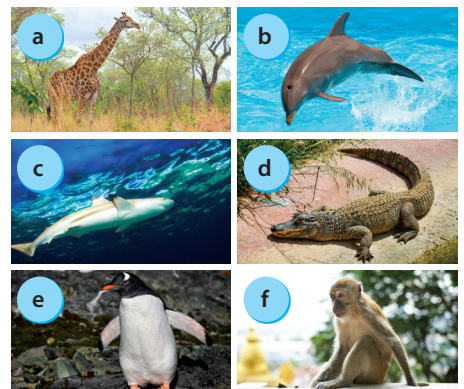

11. Where can you see snakes?

12. Can sharks survive in the ocean?

Match the sentences with the pictures.

- ☐ People think I'm a dangerous fish. I can swim very fast.
- ☐ I'm a herbivorous mammal. I have a very long neck.
- ☐ I'm a carnivorous bird, but I can't fly. I live in the cold seas.
- ☐ I'm a friendly mammal. I live in the ocean and eat small fish.
- ☐ I'm a mammal like humans. I live in forests and I can climb and sleep on trees.
- ☐ I have got a big mouth with sharp teeth. I live near rivers.

E

Match the questions with the correct responses.

1. ☐ Where do rhinos live?
 2. ☐ Which animals are endangered?
 3. ☐ What do lizards eat?
 4. ☐ How many whales are there in the world?
 5. ☐ Do penguins lay eggs or are they mammals?
 6. ☐ Are seals herbivorous?
 7. ☐ What should we do to protect wildlife?
 8. ☐ Should we hunt animals?
 9. ☐ When did dinosaurs become extinct?
 10. ☐ Why did elephant birds become extinct?
- a. No, we shouldn't hunt animals.
 - b. Polar bears, gorillas and tigers are some of the endangered animals.
 - c. We should stop global warming and keep habitats clean.
 - d. They all died 65 million years ago.
 - e. Because people destroyed their habitat.
 - f. Most rhinos live in grasslands of Africa.
 - g. No, they aren't. They are carnivorous.
 - h. They eat insects, fruit and plants.
 - i. Their population is about 15000.
 - j. They are not mammals; they are birds and they lay eggs.

F

Ask questions using the clues.

1. Where _____?
Most wild tigers live in grasslands of Asia.
2. What _____?
A seal eats different kinds of fish.
3. Why _____ hunt _____?
Because people sell their ivories. (Elephants)
